# “Open wide please”

for great news on  
dental services...

**Wayne Moyle**  
at Riccarton Dentists

Specialists in  
**Cerec Ceramic Reconstruction**

# Benefits

- Less time in the chair, only one appointment for all procedures.
- Long lasting and durable, with perfectly bonded porcelain.
- Perfect comfort and looks, less interference – teeth take less time to settle down.
- Unquestionably the most cost-effective restoration available today.

*"It's like a new tooth and the whole procedure was done in one visit."*

**Derek Collins,**  
Leeston

*"My new, perfect tooth settled down quickly, I would recommend it to anyone."*

**Jeanine Andrew,**  
Spreydon

# Step by Step

- Defective filling and decay is removed.
- A small camera painlessly takes an optical 3D image of the cavity.
- The image data is milled onto a ceramic block remote from the patient.
- The new restoration fits precisely after polishing and is bonded with a unique light.

*"Sincere thanks for saving my teeth. The professionalism of the team impressed me greatly and I have already recommended you to several of my friends."*

**David Sewell,**  
Weedons

# Wayne Moyle

Wayne has been a dentist since 1978, based at Riccarton Dentists in Matipo Street, Christchurch since 1990.

Having used Cerec Ceramic Reconstruction successfully now for some time he feels passionate about its benefits.

*"Cerec Ceramic Reconstruction is a great product and service to my clients, I feel extremely confident recommending it to them and its performance continues to exceed my expectations."*
